| https://github.com/ExpensiveBug | https://leetcode.com/u/ExpensiveBug/

Technical Skills

Programming Language : C/ C++, Python, SQL
Framework & Libraries : NumPy, Pandas, Matplotlib, Streamlit
Database : MySQL, Firebase
Cloud : AWS, Google Cloud
Tools : Git, Github, VSCode, Google Collab
Soft Skills : Problem Solving, Communication, Debugging
Additional : Data Structure Algorithm(DSA)C++, Object Oriented Programming(OOP)

Projects

Interactive Data Preprocessing & Visualization Web App : *Github*

- Developed an interactive web application for end-to-end data preprocessing, visualization, and export of structured datasets.
- Implemented file upload functionality supporting CSV and XLSX formats (up to 200MB) with real-time data preview.
- Built preprocessing features including column renaming, column removal, and multiple missing-value handling strategies (mean, median, drop rows, custom fill).
- Designed statistical visualization modules displaying column summaries, missing value analysis, and data distribution histograms.
- Enabled seamless export of cleaned datasets with custom file naming for downstream analytics and machine learning workflows.
- **Tech Stack** : *Python, Pandas, Streamlit, Matplotlib*

Account Spent :- Personal Expense & Income Tracker : *Github*

- Account Spent is a Streamlit web app that helps users manage their finances by tracking income and expenses in real time.
- It uses Firebase for secure user authentication and cloud data storage via the Realtime Database.
- Users can categorize, add, and reset their income and expenses, and visualize spending patterns through interactive bar charts.
- A detailed summary report with profit/loss analysis and a downloadable CSV makes it easy to review and share financial data.
- **Tech Stack** : *Python, Streamlit, Pandas, Matplotlib, Firebase*

Education

GJU S&T, Hisar — Hisar, India
Integrated B.SC.(Hons./Hons. With Research)M.SC. Computer Science(AI &DS) *CGPA : 8.89*
2024 – 2029

Govt. Sr. Sec. School, Balak — Balak, Hisar, India
10+2 *Marks:87%* — 2022-2024
